Lister les points de partage 2

Lister les points de partage

Pour lister les points de partages sur un serveur OSx:

```
sudo sharing -l
```

Retourne

```
List of Share Points
name:      Dossier public de Steeve JOBS
path:      /Users/steeve/Public
  afp:     {
            name:      Dossier public de Steeve
            shared:    1
            guest access: 1
            inherit perms: 0
          }
  smb:     {
            name:      Dossier public de Steeve
            shared:    1
            guest access: 1
            read-only: 0
            sealed:   0
          }
```
